

The protocol: <https://www.neb.com/protocols/2012/05/21/transformation-protocol> Shared google doc: <https://docs.google.com/document/d/1-EGV000Y4lydWFP6uo0Z-Ty8XBDJ7tNtuiERYy-yRCM/edit>

1 | three goals of this project:

1. get an inventory of the lab
2. a simple explaination of the protocol
3. the visual and conceptual protocol with self drawings
 - the stops
 - the important steps

2 | "inventory" of the lab (specified for this procedure):

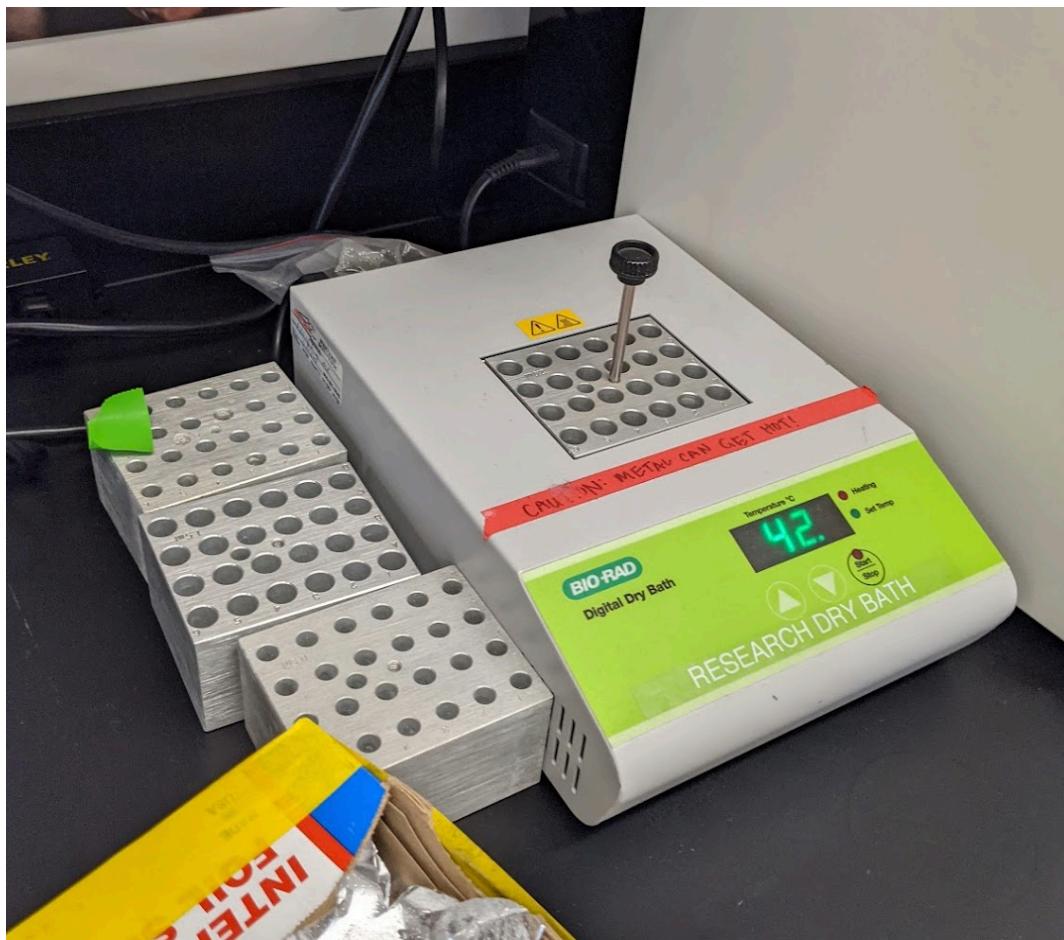

1. micro centrifuge tube

2. pipet

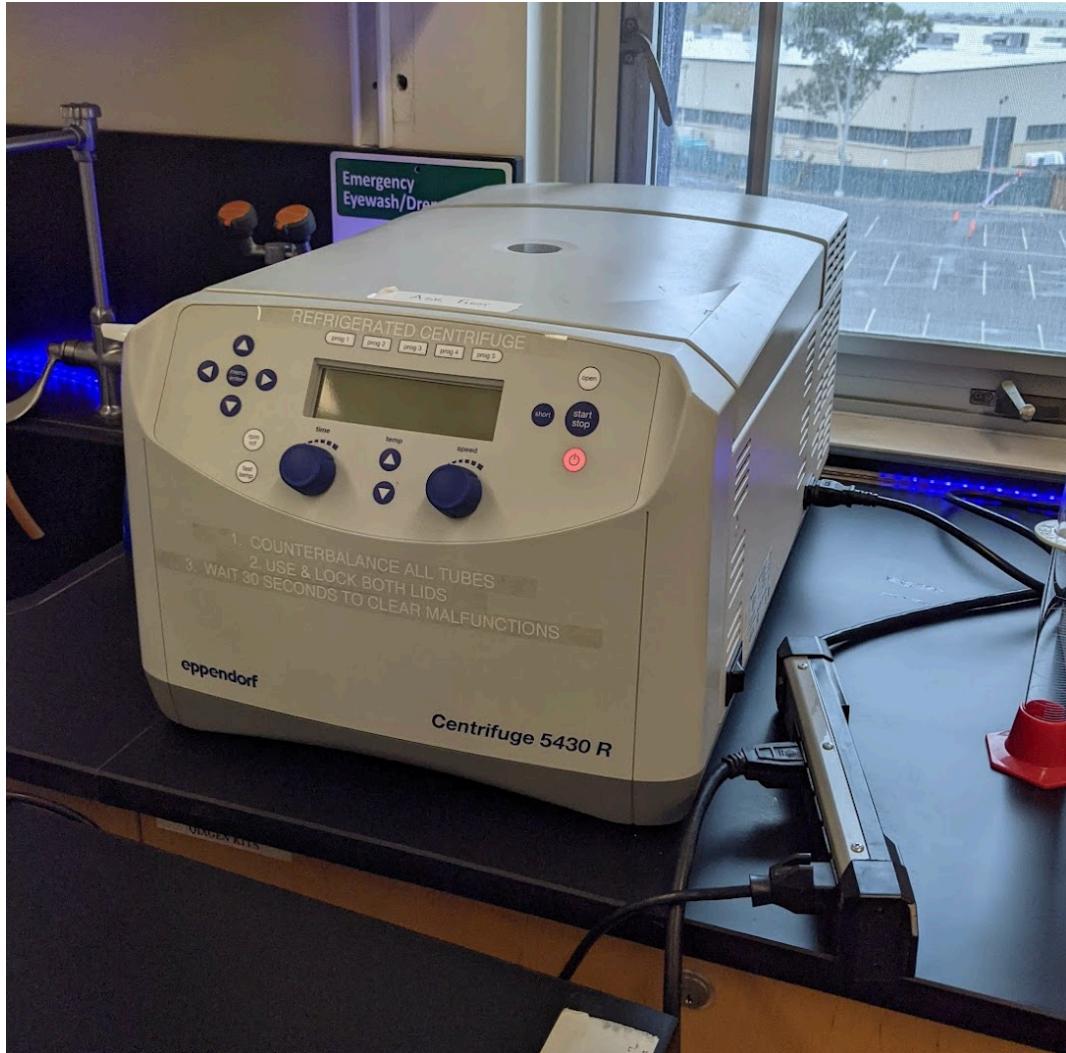

3. heat shock machine

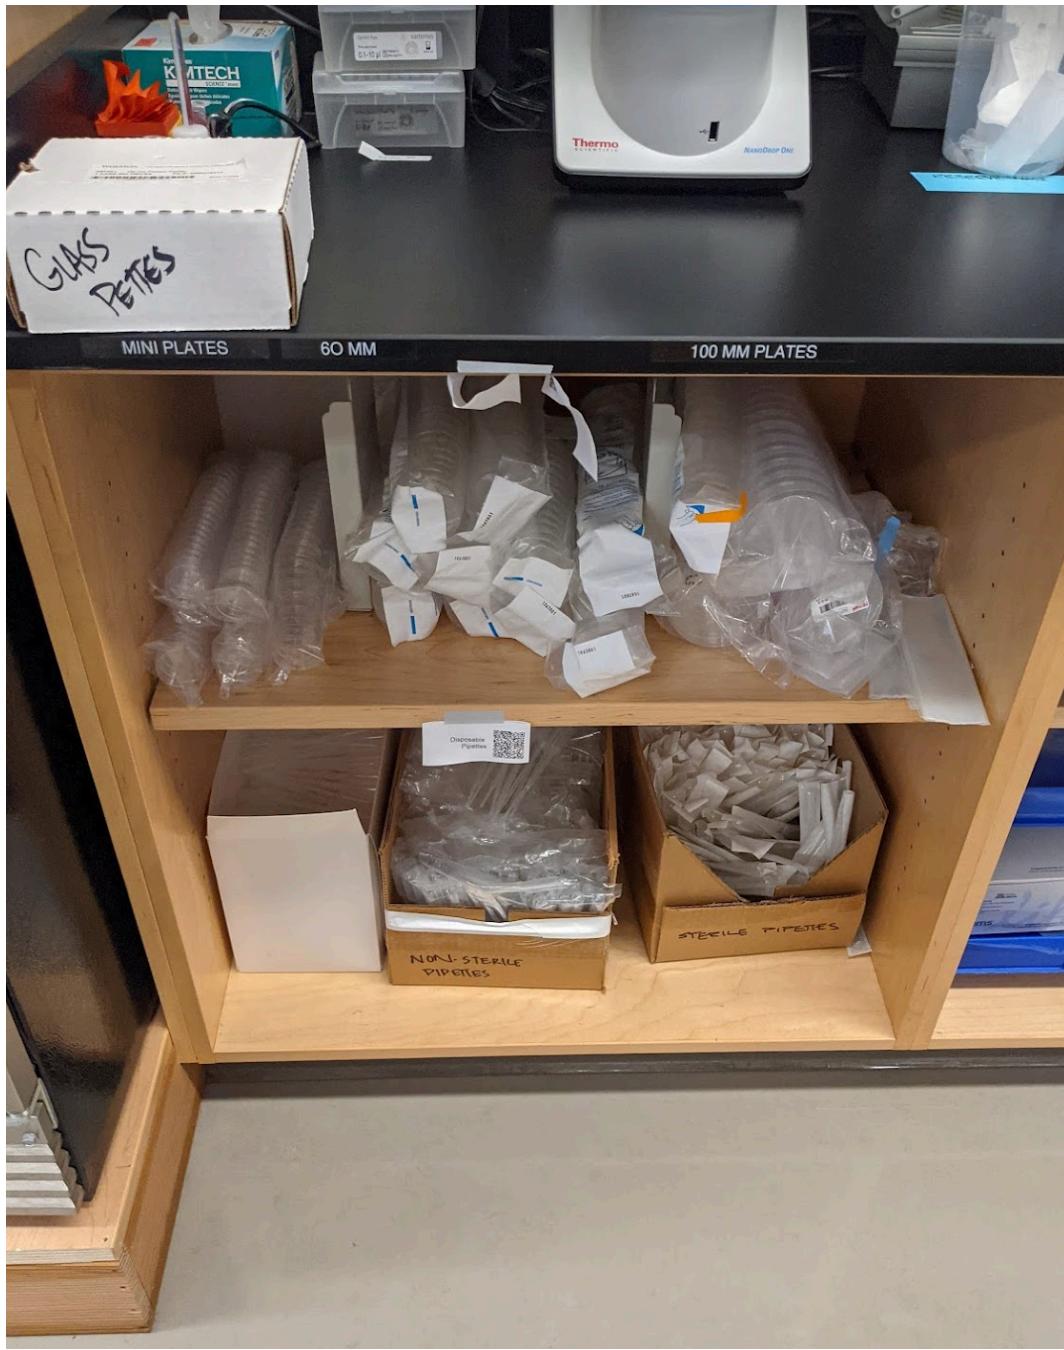

4. centrifuge

5. plates

6. incubator

3 | visual protocol version 1:
